RAMCAR Group: A Legacy of Excellence.

Celebrating over 100 years of excellence, RAMCAR Group is a global premier lead-acid battery manufacturer renowned for its iconic brands: Motolite, Yokohama, and Supercharge among other globally trusted brands.

With a Global presence and a strong legacy of innovation and durability we pride ourselves on:

- 100+ years of industry expertise
- Punched Grid Technology, developed in Germany
- ISO-9001, ISO-14001, and IATF-16949 certifications
- Ultra-modern machinery and cutting-edge technology
- 1 million+ units/month production capacity
- Global exports to North America, Australia, Asia-Pacific, New Zealand, Middle East etc.

We also pride ourselves by being the largest investors in Manufacturing facilities across ASEAN regions.

Our comprehensive product range includes:

- Automotive and motorcycle batteries
- Industrial, Marine, Golf Cart, and Traction batteries

As an industry leader in productivity, capacity, technology, and innovation, RAMCAR Group continues to power the world with excellence.

Engineered with cutting-edge technology and precision craftsmanship, Yokohama premium battery is designed to meet the demands of modern vehicles and drivers who expect nothing but the best.

- Punched Positive Grid Technology,
- Developed in Germany
- Offer 24% higher Life

- Developed through advanced multiphysics simulation software ensures more reliable engine startups and a superior performance

- Expanded Negative Grid Technology, Developed in Germany
- Higher wire density and improved wire layout pattern

- Special Carbon for Enhanced charge Acceptance Characteristics.
